

Outreach Impact: November 2020

November Highlights:

2 years ago when Wendy worked at the overflow tent on the Record Street parking lot, she met M. Wendy tried repeatedly all winter and throughout the following 2 years to find housing for M, made sure she had a phone, and connect her to resources that would work for her. Wendy watched as M's face emptied of hope over time and maintained a relationship based in trust. After a short period of loss of connection, Wendy was surprised to see M in the women's home at OUR Place. It was a beautiful reunion full of laughter and tears. M was smiling and had hope once more in her voice when she shared that she is trying and that she is getting better. M looks happy and healthy and as if she is well on her way to a different life.
