

Outreach Impact: Spring and Summer 2021

On the average, every month, this is some numbers of things I share, people I see, and events I assist with.

I have a monthly average of:

208 encounters with outside neighbors
15 camps and more community in need of..

I will share in a month an average of:

Tents: 6
Blankets: 19 (97 was top number this winter)
Tarps: 10
Bags of clothing: 25-30
Hygiene Kits: 150

Have helped with connecting and referring with:

15-20 crisis interventions
15-20 to Our Place but
200+ educate, assist, refer to and help navigate resources monthly as well as advocate

Shared at least 25-40 Narcan Kits. This August my staff made sure Season's Inn got 25 to have after a recent overdose and no narcan which I wish every motel had plenty.

These Mutual Aid groups have given me so much comfort and relief that people have not been forgotten and I don't feel such a heavy work load anymore. I love where they are going! I'm very thankful for this community and all those who stepped up.

I will add this has been harder than last month, which was harder than the last before, and so on.
